### **Great Transformations Economic Ideas and Institutional**

Book Description. This book analyses political and economic change in the Twentieth century through an examination of institutional change in the United States and Sweden from the 1920s to the end of the 1990's. The key claim is that economic ideas are powerful political tools used by domestic groups in order to effect change since whoever defines what the economy is, what is wrong with it, and what would improve it, has a profound political resource in their possession.
