Instructor s Manual

While the accounting system provides information (e.g. product costs, downtime) for management decisions, cost management refers to active use of this information to plan and control costs. Cost management requires managers to actively seek ways to reduce costs. Much cost management occurs well before the accounting system recognises costs.

Cost Accounting vs Management Accounting Top 9 Differences

The key difference between Cost Accounting vs Management accounting is that Cost accounting is gathering and analyzing the information related to cost which provides only the quantitative information to the users of the reports whereas Management Accounting is the preparation of the financial as well as non-financial information i.e., it involves both quantitative and qualitative information.
