Neuroeconomics A guide to the new Oxford Scholarship

As technology has opened new windows into the brain, it has revealed a great deal about what happens there when people make decisions about money. These revelations have given rise to a new field, called neuroeconomics. The field promises to answer both economic and emotional questions about behavior surrounding situations involving money such as why people save, buy stocks, steal, and

Oxford Guide to Low Intensity CBT Interventions Oxford

The Oxford Guide to Low Intensity CBT Interventions marks a turning point in the delivery of psychological treatments for people with depression and anxiety. Until recently, the only form of psychological intervention available for patients with depression and anxiety was traditional one-to-one 60 minute session therapy - usually with private practitioners for those patients who could afford it.
