Are Keywords Still Important. Yes, keywords are still an important factor when it comes to writing content, but maybe not the keywords you intend to be ranking for. From searching different website sources and receiving information from my knowledgeable community, the winds of change seem to be happening.

<http://home.schoolnutritionandfitness.com/Are-Keywords-Important-for-SEO--Maybe-Not-So-Much.pdf>

What Is SEO Writing How to Write for SEO

SEO writing used to be all about adding keywords to your web page. Sure, optimizing your content around keywords is still super important. But it's not enough. Today, your content also needs to match Search Intent. In other words: Your content needs to give someone searching for your keyword what they want.

<http://home.schoolnutritionandfitness.com/What-Is-SEO-Writing--How-to--Write-for-SEO-.pdf>

The Importance of Keywords in SEO

Here's the understatement of the millennium: keywords are important in search engine optimization (SEO). Back in the days of Web 1.0, reciprocal links and web directory listings were abused by spammers and some such, so the keyword eventually became one of the prime factors for determining your search engine results page (SERP) ranking, or at least it plays a major role into how high you could go SEO-wise.

<http://home.schoolnutritionandfitness.com/The-Importance-of-Keywords-in-SEO.pdf>

What is a Keyword Why are Keywords so Important for SEO

This is why keywords are so important to SEO they tell the search engines what your page is about. Keywords are only one piece of the SEO puzzle, mind you. You can learn more about how to optimize your website in this complete guide. Google Gets Smarter All the Time

<http://home.schoolnutritionandfitness.com/What-is-a-Keyword-Why-are-Keywords-so-Important-for-SEO-.pdf>

Are keywords still important lynda com

- People sometimes wonder whether or not keywords are important when it comes to SEO. And keywords can have a broad meaning. Typically, it has been meant to mean that you've done some research and understood that there's certain words people are using to try to find your product and service. So if you sold running shoes, the keyword for your website that's important would be say running shoes.

<http://home.schoolnutritionandfitness.com/Are-keywords-still-important--lynda-com.pdf>

Keywords and SEO The Importance of Understanding

Google, and other search engines greatly decreased how heavily they weigh meta keywords, but they are still an important part of SEO. Studies have shown that nearly 70 percent of search engine marketers always used meta keyword tactics, and essentially 100 percent frequently used them.

<http://home.schoolnutritionandfitness.com/Keywords-and-SEO--The-Importance-of-Understanding.pdf>

How Much Do Keywords Still Matter

Today, SEO's role is somewhat diminished, but it still matters understanding how SEO works today will still give you an upper hand. Google has continued to roll out new updates to its search (like Google Hummingbird in 2013) that make SEO keyword gaming less and less relevant because Google is increasingly doing the SEO for you. Their search has become so sophisticated that it can decipher
