### **Political economy in security studies after the cold war**

Abstract. In contemporary International Relations theory, there exists a sharp distinction between

international political economy and security studies. However, this is largely a false distinction, a product of peculiar circumstances associated with the cold war, and one which is becoming increasingly anachronistic in the post-cold war era. In order to understand international relations in this era, a reintegration of the discipline is necessary.

### **Economics of the Cold War Essay 3522 Words**

The Cold War was much more than that, it was a war of economic ideologies, it was Capitalism versus Communism. As the end of World War II approached many Americans feared a return to the Great Depression once government military spending and production ceased, however, those fears were unwarranted (The Post War Economy).

### **Cold War causes and tensions Gojimo**

Cold War causes. The underlying causes of the Cold War in Europe can largely be put down to political differences that dated from the Russian Revolution in 1917, as well as fear and suspicion. While Russia had a Communist economy and a single party state, the US was a democracy with a free-market economy, which couldn't be more different.
