### **The Institutional Dynamics of China's Great Transformation**

This book examines the role of institutions in China's recent large-scale economic, social and political transformation. The book argues that, although the importance of institutions in China's rapid economic growth and social development over the past 30 years is widely acknowledged, exactly how institutions affect changes in particular national and historical settings is less well understood.

### **INSTITUTIONAL DYNAMICS AND THE NEGOTIATION PROCESS**

This paper develops the argument for analyzing negotiations from an institutional perspective. A major theme of the argument being advanced in this paper is that the institutional perspective provides a more comprehensive understanding of the negotiation process in its entirety. The negotiation process can be broken down into three distinct components, namely (a) the pre negotiation phase
